

MUNICIPALITY FIRST FEDERAL BANK PARK

First Federal Bank Park

For its centennial year, First Federal Bank wanted to make a statement in Twin Falls by providing an area that would be the needed and valued. After many discussions with local authorities, they decided on adding amenities to the soccer complex. We brought the needs of the community together in this master plan that is currently being used by the community to continue building all areas of this park. The elements included were: a splash pad, pavilion, large playground, skate art amphitheater, community garden, basketball and pickle ball courts, picnic shelters, and connections to a fitness trail.

Seeing the smiles on families' faces makes projects like these worth every moment.
