

# Residential

*A refined outdoor retreat designed  
around the view.*

## Canyon Views

This property has beautiful views from the backyard as it is adjacent to public area and a ravine. Because of it's location, we accentuated the views while incorporating what the client envisioned. For privacy from adjacent neighbors, we utilized screening trees and shrubs that are adaptive native and will do well with the Utah weather. The multi-level patios allow for gathering spaces and for different activities in the backyard: swimming, dining, or taking in the sunrise.
