

RESORT

Snow Flower - Park City

For this property, we converted an unused tennis court into an area where more patrons could use. We added an open lawn area with picnic tables, bocce ball, pickleball courts, a firepit with BBQ's and a pergola for shade to the seating below. We also added an area where they could place a screen for movie nights.

Updated amenities and entrances in this heart of this resort town

Silver Baron Lodge - Park City

This development wanted to update the landscaping and add amenities in the open space areas. We brought elements from the building to the landscape by incorporating a mining theme. We added a rail car with rail lines mimicked through the landscaping. In the back we added bocce ball, seating areas and open lawn spaces.
